Explore an Alien World in a Game Like No Other

In the Pikmin 3 game, players take command of three explorers and a legion ofadorable Pikmin in a fight for survival. By employing the unique abilities of these tiny Pikmin creatures, players will solve puzzles, battle dangerous predators and recover food needed to save the explorers' depleted home planet.

FEATURES

• Discover the charming personalities of the plant-like Pikmin creatures as they come to life in multiple shapes and sizes. Different Pikmin types, including new Rock Pikmin and Winged Pikmin, offer unique abilities. Rock Pikmin are sturdy creatures who can be tossed at solid objects to break them down. Winged Pikmin have the ability to fly and can carry objects in the air.

• Divide and conquer! Split your Pikmin squads among the three explorers to maximize your strategy.

• Use the Wii U GamePad controller as an in-game camera to capture the alien-safari environment from a pint-sized perspective. Snap and caption photos, then share them via Miiverse.

• Show off your skills in a variety of modes or challenge a friend in the wild and frenetic multiplayer battle mode.*

• The intuitive controls of the Wii Remote and Nunchuk controllers make it easy to lead your explorers and pinpoint the location where you want to throw Pikmin.

• The game can also be played off the television using only the Wii U GamePad.

It's time to earn your wings!
Join the Flight Club to take to the skies and experience a variety of aerial activities. Take off and pilot a biplane through rings along a predetermined flight path, or drift serenely in a hang glider, catching thermal currents to gain altitude. In either case, just be sure to stick the landing. Strap on the rocket belt to blast your way around an obstacle course. If that's not enough, reach maximum velocity as you tackle a skydiving lesson at 3,800 feet. Complete specific objectives within a set time limit to score points and obtain certification in eight different lessons. Your goals will become more challenging, and weather conditions will make controlling your vehicle more difficult as you progress. If you succeed, you will be rewarded with the opportunity to pilot an attack helicopter on a daring rescue mission.
